

# TOPICAL ANTI-INFLAMMATORY PAIN CREAM

DICLOFENAC   KETOPROFEN   CELECOXIB

Welcome to Restore Pharmaceuticals. Our mission is to continuously research and prepare the most effective and safe products for our patients to maximize results. Our highly trained staff will prepare your prescription according to your doctor's specifications using the highest quality ingredients.

## WHY TOPICAL?

In a topical formulation, we are able to apply a higher concentration of medication directly on the affected area. Topicals are known to be safer than orals by bypassing the problematic areas of the GI tract, cardiovascular systems and reducing the concerns of drug interactions.

Restore is the exclusive provider of the award winning Delivra base, recognized for its ability to penetrate deeper, act faster and sustain the release of medication. Dermatologically tested it is also hypoallergenic and non irritating.

## ACTIVE INGREDIENTS

Diclofenac, Ketoprofen, Celecoxib belong to a group of drugs called NSAID's (Non-Steroidal Anti-Inflammatory Drugs). Each of these active ingredients have their own unique abilities to relieve pain and reduce inflammation.

## DIRECTIONS FOR USE

1. Apply a thin layer to the affected area. Gently rub the cream into the skin until it has completely absorbed. *May take 1-2 minutes. Do not cover the area unless instructed by your physician. Do not apply to broken skin.*
2. Wash your hands afterwards. However if applying to fingers, must leave on for a minimum of 5 minutes to allow for optimal absorption.
3. Only apply to the areas as directed by your physician. Use consistently according to prescribed directions for best results.

## SIDE EFFECTS

This may increase sensitivity to sunlight therefore it is recommended to use sunscreen as necessary. As with any medication there may be the chance of allergies or intolerance. Stop using and contact your physician or our pharmacy if you experience any of the following: rash, itching or irritation at the applied site, change in blood pressure, dizziness, fatigue or any other change in medical status.

## STORAGE

Store your medication in a cool and dry place away from heat and moisture.
