

HYDROGEL PATCH

Welcome to Restore Pharmaceuticals. Our mission is to continuously research and prepare the most effective and safe products for our patients to maximize results. Our highly trained staff will prepare your prescription according to your doctor's specifications using the highest quality ingredients. Our innovative Hydrogel Patch technology treats the pain site by gradually diffusing the medication from the patch into the affected area.

DIRECTIONS FOR USE

1. Peel off plastic backing to expose the adhesive side, apply one patch to the affected area and keep it on for 12-24 hours. If the patch falls off or is removed, do not reapply the patch, even if it has been less than 12 hours. Wash your hands after application unless you are treating your hands.
2. This medication is for use on the skin only as directed by your doctor. Avoid any contact with the eyes, mouth or mucous membranes. In the case of accidental contact, rinse right away with plenty of water.

SIDE EFFECTS

As with any medication there may be the chance of allergies or intolerance. Stop using and contact your physician or our pharmacy if you experience any of the following: rash, itching or irritation at the applied site, dizziness, fatigue or any other change in medical status.

STORAGE

Only open the foil pouch when you are ready to apply the patch. Store at room temperature away from light and moisture. Keep all medications away from children and pets. Do not flush medication down the toilet. Properly discard this product when it is expired or no longer needed.

*Thank you for allowing Restore Pharmaceuticals to be part of your healthcare solution.
