FEMALE LIBERATING CREAM

Welcome to Restore Pharmaceuticals. Our mission is to continuously research and prepare the most effective and safe products for our patients to maximize results. Our highly trained staff will prepare your prescription according to your doctor's specifications using the highest quality ingredients.

HOW IT WORKS

This cream was designed with several ingredients to channel more blood to the area and bring a more powerful climax and afterglow. There is usually an increase in lubrication as well. This is not an aphrodisiac or mood enhancer. On the first application you will likely feel some tingling. Begin by applying only to the clitoris on the first occasion. Once you are familiar with what to expect, it is recommended to apply to the clitoris and both sides of the inner lips of the vagina.

DIRECTIONS FOR USE

1. Apply one pump to clitoris.
2. Apply to sides of inner labia. Avoid the centre vagina opening as there may be irritation for a few minutes.

ADDITIONAL INFO & FAQ

Please see reverse for further details.

SIDE EFFECTS

As with any medication there may be the chance of allergies or intolerance. Stop using and contact your physician or our pharmacy if you experience any of the following: rash, itching or irritation at the applied site, dizziness, fatigue or any other change in medical status.

STORAGE

Store your medication in a cool and dry place away from heat and moisture.

FEMALE LIBERATING CREAM

ADDITIONAL INFO & FAQ

What if the tingling is uncomfortable?

If the tingling becomes uncomfortable then wash off with a wet cloth. Hold off applying further cream and wait one day or more before retrying. We advise starting with a smaller amount and gradually increasing to a full pump dose.

Will my partner feel any effects of the cream that is on me?

Your partner may feel some tingling and possibly the sexual effects. This is more likely if you engage within 10 minutes of application. To avoid, wash off with a wet cloth 10 - 15 minutes after applying. Much of this will be absorbed by then.

Is there a taste?

Yes. Avoid tasting as it is very bitter and not pleasant to taste. Rinse mouth if required.

How long after applying will I feel the effects?

The cream works quickly within 10 minutes and can last up to 1 hour.

Is there Viagra in this?

The active ingredient that is in Viagra known as Sildenafil is one of the many ingredients in this cream.

Are there any side effects from these prescription ingredients?

There are no experimental or new to market ingredients used in this formulation. They are generally considered safer for this reason. There is a shift in blood flow which rarely may cause dizziness.

If you have any questions or concerns, please call or email our pharmacy.
