

WART SOLUTION

Welcome to Restore Pharmaceuticals. Our mission is to continuously research and prepare the most effective and safe products for our patients to maximize results. Our highly trained staff will prepare your prescription according to your doctor's specifications using the highest quality ingredients.

HOW IT WORKS

This compounded solution is a combination of highly potent prescription strength ingredients used to treat warts.

ACTIVE INGREDIENTS

Trichloroacetic Acid (TCA) - A powerful chemical that kills warts by destroying the proteins in the cells. After repeated application, it will cause the warts to shrink and eventually disappear.

Salicylic Acid - With repeated application, salicylic acid works to remove warts by exfoliating the skin cells until the wart is gone.

Flexible Collodion - An effective wart treatment more powerful in combination formulas to help form a protective coating over the treated area.

DIRECTIONS FOR USE

1. Before applying the medication, soak the wart in warm water for 5 minutes and dry thoroughly.
2. Please use the dropper supplied to carefully apply to wart only. Avoid spreading the solution on your unaffected skin as this could cause redness and soreness. We recommend applying a thin layer of petroleum jelly on your skin surrounding the wart for protection.
3. Keep wart covered with a band aid or dressing if recommended by your doctor.
4. Warts can have stubborn roots and can take multiple weeks to clear. Use consistently according to prescribed directions for best results. If you notice the same wart returning, start to use the solution again.

Do not apply to the face, neck or genitals.

SIDE EFFECTS

As with any medication there may be the chance of allergies or intolerance. Stop using and contact your physician or our pharmacy if you experience any of the following: rash, itching or irritation at the applied site, dizziness, fatigue or any other change in medical status.

STORAGE

Store your medication in a cool and dry place away from heat and moisture.

*Thank you for allowing Restore Pharmaceuticals to be part of your healthcare solution.
